		CENTRAL PACIFIC RAILROAD.																			
		TABLE II. Showing the Movement Charges for Second Class Freight (loaded and unloaded by Company) between the Stations named in the Table, by Tariff of January 1st, 1876, and by the provisions of Act No. 3, of Supplementary Report of the Commissioners of Transportation, of January 14th, 1878.																			
		EXPLANATION OF TABLE.																			
		In the space on a vertical line with one Station, and on a horizontal line with another, is shown:																			
		FIRST—The distance in miles between the two Stations.																			
		SECOND—In the upper line, the Movement Charge and Movement Mileage Rate, as per tariff of January 1st, 1876.																			
		THIRD—In the lower line, the Movement Charge and Movement Mileage Rate, as per provisions of Act No. 3.																			
		In this case, the freight being loaded and unloaded by the Company, the Movement Charge on each Section is computed by deducting a Station Charge of Fifty Cents from the total charge on such Section.																			
		The total charge between any two points is the Movement Charge, as per Table, with fifty cents added thereto.																			
		LENGTH AND TERMINI OF SECTIONS.																			
		Section 1—From Redding to Roseville Junction, 152 miles.																			
		Section 2—From State Line to Roseville Junction, 120 miles.																			
		Section 3—From Roseville Junction to Lathrop, 76 miles.																			
		Section 4—From Lathrop to Goshen, 146 miles.																			
		Section 5—From Niles to San Jose, 18 miles.																			
		Section 6—From Lathrop to San Francisco, 82 miles.																			
		MOVEMENT CHARGES OVER EACH SECTION.																			
		By tariff of January 1, 1876—																			
		By provisions of Act No. 3—
