Gentlemen:

I am pleased to note that you are about to place your Meridian Farms Tract in Sutter County on the market and make it available to settlers of average means and on easy terms. I am intimately acquainted with this Tract, and taken as a whole, I know of no better large body of land in the State.

Sutter County, as you know, is famed for its combination of fertile soil, abundant water for irrigation purposes and a temperate climate that is so admirably suited to the growth of such a large variety of choice fruit and farm products as are in evidence in Sutter County. Your Meridian Farms Tract is no exception with respect to these three essentials to successful horticultural and agricultural pursuits.

It is the general opinion around here that new settlers who go into your Tract will best serve their own interests by engaging in diversified farm operations. Aside from growing choice fruits, you have one of the most perfect tracts of land for dairying that I know of. If new settlers will plant part fruit and part to alfalfa and engage in dairying, they will make no mistake.

I take pleasure in recommending your project and your Company to all new and worthy settlers.

Very truly yours,

A. A. McMullen
Secretary.
