Business Notice.

In giving this Priced Catalogue to the public I have aimed to make it as brief as possible, in order that parties who wish to purchase of me may see at a glance that my stock of FRUIT, SHADE AND FOREST TREES, SHRUBS, ETC., embrace all that is especially adapted for our climate and soil.

My long experience in the Nursery and Garden, (30 years, of which 22 in California,) I am able and certain to give my patrons the worth of their money.

I take great care in packing Trees and Plants, and special care is given to shipments, for which a charge will be made sufficient to cover cost of material used. All packages will be forwarded at the risk of the purchaser.

If an error is committed in filling an order, the purchaser is requested to notify me at once, as no *claims for reduction will be allowed unless made within ten days* after receipt of trees.

A liberal discount to the trade.

I have many varieties of Fruit and Ornamental Trees that are not mentioned in this list.

Letters of inquiry will be cheerfully and promptly answered.

[NOTE 1.—My New Hybridized Seedling Potatoe that was awarded the Silver Medal by the State Agricultural Society Fair of 1872, will be offered for sale next fall.]

Flower and Vegetable Seed.

I have for sale at eastern prices all kinds of Flower and Vegetable seed. I grow my own seed, and there is abundant proof to show that California grown seeds are equal if *not superior* to any that are imported.

Our Wheat, Corn, Tobacco and Cotton are esteemed the best.

Our Fruit maintain and ripen in different localities, on mountain, valley and coast, and the time is not far distant when our Flower, Vegetable and Tree Seeds, will form an important item in our list of exports.

Those who are anxious to see good vegetables and pretty flowers, will do well to buy seed of me, for they will get fresh and reliable seed.
