

STUDY THIS COMPREHENSIVE MAP and note location of North Sacramento, which is immediately in line with natural development. This will be an ideal city of homes, sustained by agriculture and industrial enterprises. Land is being offered here for sale at prices that will net big profits to buyers within the next few years. Electric cars give rapid transit to and from Sacramento.

Location and rapid transit should guide in purchasing suburban property. North Sacramento comprises all lands in the suburban zone of the Rancho del Paso.

SACRAMENTO is the commercial and railroad center of Central and Northern California, and the great inland city of the state, surrounded by the most productive farming land in the world. It is today to Central California what Portland is to Central Oregon. Values increase here with every tick of the clock, as they always do where there is rapid transit to and from a large city.
